About Basin Electric Power Cooperative

Basin Electric is a member-owned, regional cooperative headquartered in Bismarck, North Dakota. It generates and transmits electricity to 138-member rural electric systems in nine states: Colorado, Iowa, Minnesota, Montana, Nebraska, New Mexico, North Dakota, South Dakota, and Wyoming. These member systems distribute electricity to about 3 million members.

About NextEra Energy Resources

NextEra Energy Resources, LLC, together with its affiliated entities, is one of the largest energy infrastructure companies in North America. With approximately 37,500 megawatts of net generating capacity in operation, the company develops and operates a diverse portfolio that includes renewables, battery storage, natural gas and nuclear.

1. Estimates are based on current projections as of March 2026 with assumption of some level of tax abatement for the data center. Represents full operational status of both the River Run Energy Center and associated data center.
